

# PINNACLE

**AN INTEGRATED PRESCHOOL PROGRAM**

NYS Forward  
COVID-19  
Remote  
Learning Plan

**FALL 2020**

## Remote Learning Plan

Our students are the foundation upon which this educational institution builds its instructional program. Our commitment and dedication to empower our students to develop the knowledge and skill to be respectful, responsible, and productive children. We will strive to ensure this mission through our remote learning opportunities, as well as, classroom models.

We will identify and prioritize the learning outcomes for each individual child in order to efficiently plan for instruction for the 2020-2021 school year. We will ensure that the remote learning environment is consistent with those of in person instruction. This continuity will be accomplished through collaborative development that are developed and aligned to New York State Learning Standards. All teachers will use and communicate on the basis of their instruction and assessments that will be used to measure a child's degree of mastery.

We will ensure that our teachers will use regular feedback with parents and children to communicate their progress. In addition, children will have opportunities to interact with one another as well as their teachers.

We will support and address an individual child's needs academically as well as social-emotional developmental health, whether those needs were pre-existing or arose directly from the impact of Covid-19.

Virtual sessions will be conducted using **Google Meet, Zoom** or similar options within normal class times. Sessions will incorporate the following:

Circle Time  
Learning Centers  
Whole Group

Families who would prefer a **virtual only** option please contact Pinnacle's main office at (315) 963-3680 for arrangements as times may vary.

Pinnacle will be offering in class times as listed below. If you are interested in your child attending in class, please call our main office at 315-963-3680 for more information.
